MAINE DEMOCRATIC PARTY

2018 PLATFORM [DRAFT]

Preamble

Our American democracy is a powerful and effective form of organization that strives to treat all with dignity and without discrimination, and functions for the betterment of the collective good.

Maine Democrats believe that the foundation of a strong democracy is an educated and informed electorate. We believe that Americans have the right and an obligation to collectively set the political agenda and to debate and decide on those issues important to them.

Building on that foundation, Maine Democrats will work actively to ensure that people in Maine have:

A	Economic, racial, and social justice, and an economy that works for the many, not the few
B	Universal access to high quality and affordable health care
C	Equitable quality public education from early childhood through college and workforce training
D	Ethical, transparent, and accountable government
E	Protection of individual liberties such as free speech, freedom of religion, and freedom from discrimination
F	Guarantees of all human and civil rights
G	Aggressive action to prevent and mitigate the effects of climate change and to protect our natural environment
H	The benefits of global peace and national security
I	Access to support services for all veterans, military personnel and their families
J	A fair, progressive system of taxes and a state budget that promotes sustainable economic growth and job creation

We have long fought and will continue to fight for these policies and principles.

We adopt this platform as an expression of what Democrats in Maine support and as a guideline for elected officials in their political work.

A. Economic Prosperity And Justice

We Democrats support a fair economic deal for all and a fiscally responsible government that will protect the interests of our State and its people. Our government must uphold the right of everyone to earn equitable rewards for contributions to our economy, which will help reverse the alarming trend of growing economic inequality. Maine needs jobs with livable wages for all who can work, with a minimum wage high enough to raise workers out of poverty. To protect our most vulnerable citizens, the Democratic Party commits itself to reconstructing the social safety net.

To accomplish these goals, the Maine Democratic Party supports:

1. An economy free from discrimination, including equal pay for equal work.
2. Guaranteed freedom for all workers to organize unions, bargain collectively, and strike without replacement or reprisal.
3. Opposition to the misleadingly named "Right to Work" laws.
4. Workplaces free from health and safety hazards, discrimination, and harassment; respect for employees' family obligations, health, and other needs; and effective monitoring and enforcement of laws protecting workers.
5. A paid family and medical leave program for all workers.
6. A health care system with protection for all Mainers against the significant economic consequences of illness and injury.
7. Assistance for those suffering hardship, including strong measures to fight root causes of poverty and homelessness.
8. Protection from the economic repercussions of natural disaster including those induced by climate change.
9. Safe, sanitary, affordable housing.
10. A strong unemployment compensation program.
